WIGMORE'S POCKET CODE OF EVIDENCE

A condensed treatise of the existing rules of Evidence for reperusal and ready reference in crucial moments of trial. Arranged with sectional references to the monumental five-volume treatise of "Wigmore on Evidence," to facilitate detailed illumination, and printed on a superior quality of thin paper with alternate blank leaves to receive the personal annotations of the careful practitioner who desires to keep up with the course of judicial decision, and to preserve his knowledge in accurate and ready form for prompt usage.

A POCKET CODE OF THE RULES OF EVIDENCE IN TRIALS AT LAW. By JOHN HENRY WIGMORE, author of "Wigmore on Evidence."

Handsomely bound in black morocco, with flexible covers, to carry conveniently in the pocket for handy use. Price, \$4.00 net.

diction, as law by adoption is not fixed law.

MACOMBER ON TRUSTEES IN BANKRUPTCY

If you look in this work for the answer to a question of patent law upon which a court of last resort has passed judgment, you will find it, and know it is fixed law, what court announced it, who wrote the opinion, on what citations the ruling was founded, whether any member (and who) dissented.

The arrangement is such that a point of law may be located generally, and found specifically without undue waste of time. The classification and arrangement are the result of actual practice, the author having used the greater part of the work in active practice for fifteen years, revising it as necessary from time to time. The references are to all of the standard reports, and no rule is stated on the authority of a court of original jurisdiction, as law by adoption is not fixed law.

Lawyers in general practice are finding this new treatise of especial value.
